ORDER AGAINST VIOLENCE

CASSATT AND BAER HOLD A CONFERENCE.

Philadelphia, March 31.—When the mine workers in the anthracite field. finished their week's work at noon today there was every indication that the order of the scale committee of the Mine Workers of America, suspending operations pending the result of the next Tuesday's conference with the operators, would be generally obeyed. Reports from every district received here tonight are to the effect that a majority of mine workers intend to re-main away from the workings until further instructions are received from President Mitchell and the members of the scale committee. In the lower field, comprising the collieries in Schuylkill county, some indecision on the part of the men is reported, and the impression prevails that sufficient mine workers will return to work on Monday to permit the operation, short handed, of a number of the collieries.

Complete Suspension.

But the fact that in the vicinity of Mahanoy City and Shamokin hundreds of men failed to report for duty today is regarded as evidence that there will be a complete suspension of mining throughout the entire anthracite terri-

The men left the mines today as usual, making no demonstrations at any of the workings.

The lead taken yesterday by the Delaware, Lackawanna & Western Railroad company in posting notices an-nouncing the continuation of the strike commission's award for the ensuing three years was followed to a large extent today by other operators, espe-cially in the northern field. At Scranton today and tonight officials of the companies whose holdings are located in the Lackawanna and Wyoming districts held conferences for the purpose of discussing the situation. It was decided to keep all the mines in readiness for operation should the men ignore the scale committee's order.
